Dr. Pierce's Favorite Prescription,

Dr. Pierce's Favorite Prescription,
Is not a secret or patent medicine, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine or known compositron, a full list of all its ingredients being printed in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol, in its makeup. The "Favorite Prescription" of Dr. Pierce is in fact the only medicine put up for the cure of woman's peculiar weaknesses and aliments, sold through druggists, that does not contain alcohol and that too in large quantities. Furthermore, it is the only medicine for woman's special diseases, the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the aliments for which "Favorite Prescription" is recommended.

A little book of some of these endorse-

which "Favorite Prescription" is recommended.

A little book of some of these endorsements will be sent to any address, postpaid, and absolutely free if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Don't forget that Dr. Pierce's Favorite Prescription, for woman's weaknesses and delicate aliments, is not a patent or secret medicine, being the "Favorite Prescription" of a regularly educated and graduated physician, engaged in the practice of his chosen specialty—that of diseases of women—that its ingredients are printed in plain English on every bottle-wrapper; that it is the only medicine especially designed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimontals" ever published for other medicines. Send for these endorsements as above. They are free for the asking.

If you suffer from periodical, headache, backache, dizziness pain or dragging down sensation low down in the abdomen, weak back, have disagreeable and weaking, catarrhal, pelvic drain, or are in distress from being long on your feet, then you may be sure of benefit from taking Dr. Pierce's Favorite Prescription.

VIRGINIA STATE LIBRARY.

Under an act of the last assembly the efficiency of the Virginia State Library was largely increased. Provision was made at that time for the divisions of bibliography, traveling libraries, archbibliography, traveling libraries, arcuives and history and the department of notes and queries. All of these sections are now in first class working order, and the library board is prepared to assist the public in any line of research undertaken for the advancement of education in this or other states.

Seventy-first traveling libraries are now located in various sections of the State, and in addition to this number, twenty-

and in addition to this number, twenty-five will be added within six months five will be added within six months.

These libraries can be secured by any community making application in due form to the Virginia State Library, and as the railroads carry books free, no expense results to those having the project in hand. The libraries consist of fifty volumes of assorted literature, and are carefully selected in the interest of all

The purpose of the department of archives and history is to collect, preserve and publish valuable manuscripts belonging to the State and its honored sons. The library board will be glad to hear from any one having knowledge of valuable private collections of manuscripts, and will assist in every way possible to collect and preserve such papers. The interest of the public generally is necessary, however, to perfect the plans of the State in this direction.

State. The co-operation of any one in this work will be greatly appreciated.

Attention is likewise directed to the divisions of bibliography and notes and queries. The library is ready to assist any student to perfect his student to assist any student to perfect his study along any line, and it is the privilege of every citizen of Virginia to use the various departments of this institution for that purpose. No charge whatever is made for information furnished, and correspondence on all educational subjects is earn-

estly solicited.
In addition to the traveling library system, of circulating books for the bene-fit of the public, the State also undertakes to assist all study clubs in research

In order that the citizens of Virginia may enjoy every privilege now possible to them, I am directed by the library board to say that the interest of each applicant will be most carefully considered, and, as far as possible, their de mands granted.

JOHN P. KENNEDY, State Librarian of Virginia.

Little Girl Accidently Killed.

Sylvester Emerick, a Pennsylvania Railroad engineer, was accidentally shot and killed yesterday while playing at her home, at Ellerslie, near the Pennsylvania state line in the vicinity of Cumberland, Md., She was playing in the yard with some children when Eugene Smith, aged about 20 years, son of Dr. J. Carl Smith, of Ellerslie, went out to the stable to kill a rat, taking a 32-caliber rifle with him. The rat ran between two small buildings, and when Mr. Smith fired he killed the rat, but the ball passed through the rodent and struck the little child, who was on the other side of the fence, going through her heart and coming out on the right side below the ampit. Young Smith is almost prostrated with grief. A remarkable coincidence in connection with the sad affair was the fact that the child, with several companions, was playing at her home, at Ellerslie, near the sad affsir was the fact that the child, with several companions, was playing "having funerals." They were burying their own little dollbabies after the fashion of children. The dead girl had just placed the last little handful of dirt on the grave of her "dead baby" when the crack of the rifle rang out, and her dead bady lay almost across her dolly's mound.

Hundreds of valuable manuscripts have been purchased by agents who have been carrying on a large traffic in this material for many years. Papers sold to such collectors seldom find their way into public libraries, but are delivered to private parties, who will neither permit an examination to be made of them or dispose of their possessions. The Virginia State Library has instituted an energetic campaign to prevent this traffic which is rapidly de-pleting the historical sources of the

work. It is also the privilege of any person to borrow a book or books (fiction excepted) for the advancement of indi-vidual study.
